PORTLAND CHAMBER OF COMMERCE STRONGLY ENDORSES BILL FOR SCHOOL TO BE LOCATED AT PENDLETON.

Portland, Ore.—The Portland Chamber of Commerce, which stands at the head of the businessmen's organization of the state, recently endorsed the measure proposing a Normal School at Pendleton in a resolution, giving the following reasons:

"We believe that Eastern Oregon is reasonable in its demands that such a school be located east of the Cascade mountains, hence we recommend its location at Pendleton as the most logical for the following reasons:

"First, it is a city of some size, having an enrollment of over 1,000 grade pupils.
"Second, Pendleton is very accessible, having over twenty passenger trains each day from five directions.
"Third, its location is as near central as could be expected, making it easy of access at a moderate cost to the students.
"Fourth, it is our understanding that the citizens of Pendleton propose to donate a very favorable site for the school.
"Fifth, many other advantages are: A good public library, several churches, pure water and a live, intelligent community that will take pride in the progress of the school."

Excepting in very stubborn growths, one application is sufficient. To avoid disappointment, buy the delatone in an original package.
